The City of Athens MUST inspect before covering.

Grease Trap Size
- 500 Gallons
- 1000 Gallons
- 1500 Gallons
- Other _______

Cleaning Frequency
- Monthly
- Quarterly
- Semi Annually
- Other _______

Notes:
1. Drawing is intended to give a general representation of a new food service facility installation. Facility may vary due to different layout, site, shape or size. Facility must have an easily accessible outside grease trap, an inspection manhole (24" min.) where the kitchen line (grease trap effluent) and the bathroom sanitary line are combined, and be tied into a manhole in the City of Athens sanitary sewer system. There will be no blind tie-ins.
2. Grease Interceptor size and cleaning frequency to be determined by the Engineering & Public Works Department (740-593-7636).
